

Press Release

Munich, October 10th 2018

Prof. Dr. Laurenz Czempiel is Speaker at the IPE Real Assets Conference on 17.10.2018 in London

At this year's IPE Conference on the London Stock Exchange, the Management Board of Ventusolar Global Capital will present promising long-term investment options in the field of renewable energies with focus on wind and PV in Canada.

Munich/London. Prof. Dr. Laurenz Czempiel, Managing Director and CIO of Munich-based Ventusolar Global Capital GmbH, part of the German-Canadian Ventusolar Group, is a speaker at the "IPE Real Assets & Infrastructure Conference 2018". His topic will be the influence of technology development on the industry and the associated long-term promising investment options, especially in the field of renewable energies with focus on wind and solar in Canada.

This year's IPE Real Assets Infrastructure Conference will take place on 16 and 17 October 2018 at the London Stock Exchange. The annual event is an important industry meeting for institutional investors. The focus is on identifying options with sustainable return potential. Leading experts and industry professionals will discuss forward-looking topics ranging from market pricing, investment approaches and performance measurement to global trends, regulation and policy issues.

About Prof. Dr. Laurenz Czempiel:

Prof. Dr. Laurenz Czempiel studied economics at the University of California, Santa Barbara as well as at LMU in Munich, where he received his Ph.D. on political risks in foreign exchange markets. As an economics assistant, he taught courses in macroeconomics, money, credit and currency. Prof. Czempiel worked as a financial consultant at the Merrill Lynch International Private Banking Group
